JULY 2025 vol. XXXVIII no.7

Join ChemStation at IAFP 2025!

We're excited to announce that ChemStation will be exhibiting at the International Association for Food Protection (IAFP) Annual Meeting, happening July 27-30, 2025, at the Huntington Convention Center in Cleveland, Ohio. This globally recognized event brings together more than 3,500 food safety professionals from across six continents to explore current and emerging food safety challenges, cutting-edge research, and innovative sanitation solutions. Come visit us at Booth #826 to meet the Eagle Team and learn how our sustainable sanitation solutions are helping shape the future of food safety.

If attending, don't miss Eagle Team member Joel Schaffer presenting at Friday's pre-conference workshop on July 25th! He'll be diving into "Solution-Based Cleaning & Sanitizing: Choosing the Right Cleaners for Soil Removal in Low-Moisture & Dry Programs," a must-attend session for anyone tackling sanitation challenges in dry environments.

Learn more at www.foodprotection.org/annualmeeting/. We look forward to connecting with you in Cleveland!

Operation Safe Driver Week

The Commercial Vehicle Safety Alliance (CVSA) organizes several commercial motor vehicle events throughout the year, including Operation Safe Driver Week which occurs this year on July 13-19. This safe-driving awareness and outreach initiative is aimed at improving the driving behaviors of passenger vehicle drivers and commercial motor vehicle drivers through educational and traffic enforcement strategies and driver interactions with law enforcement.

The focus of this year's Operation Safe Driver Week is reckless, careless or dangerous driving. Any person who drives a vehicle in willful or wanton disregard for the safety of persons or property is driving recklessly. Careless/dangerous driving is defined as operating a vehicle without due care and attention or reasonable consideration for other motorists or people on the road.

For more information on Operation Safe Driver Week, please visit www.cvsa.org/programs/operation-safe-driver/.

What is CSI?

Sanitation training often doesn't get the spotlight it deserves. That's where CSI – the ChemStation Institute comes in. What began as a simple educational event aimed at helping customers better understand sanitation chemistry has expanded to a 1.5-day industry summit packed with immersive workshops, technical presentations, and real-world problem-solving.

This October in Denver, CO, CSI returns with an expanded format and a fresh line-up of sessions designed to challenge and equip sanitation professionals at every level. Whether you're in QA, operations, or sanitation leadership, this event advances your skills and sharpens your investigative instincts.

Join us in Denver on October 27-29 and be part of the solution. Learn more about CSI at chemstation.com/what-is-csi/. Register by clicking here!

Your competition isn't other people. Your competition is your procrastination, your negative thoughts, your comfort zone. Compete against that.
