MAY 2025 vol. XXXVIII no.5

International Roadcheck

The 2025 Commercial Vehicle Safety Alliance's (CVSA) International Roadcheck is scheduled for May 13-15. During this annual three-day event, CVSA-certified inspectors conduct compliance, enforcement and educational initiatives targeted at various elements of motor carrier, vehicle, and driver safety.

Each year, CVSA asks its member jurisdictions to capture and report data on two focus areas – one is related to driver compliance and the other pertains to critically important vehicle violations. This year's International Roadcheck will focus on tires and false records of duty status.

To help drivers and motor carriers prepare for this year's International Roadcheck, CVSA created an informational flyer on this year's focus areas. For this flyer or to learn more about International Roadcheck, visit https://cvsa.org/programs/international-roadcheck/.

Steps of Sanitation Poster

Sanitation is crucial in maintaining safety and quality in various industries, including food processing. Effective sanitation involves a series of carefully executed steps designed to remove contaminants, reduce microbial load, and eliminate pathogens. Each step in the process is essential for preventing contamination, protecting public health, and maintaining the integrity of products and environments.

To help our customers better understand and implement these crucial steps, we are excited to announce the availability of our new Steps of Sanitation poster. This poster provides a clear and concise guide to the sanitation process, making it easier for you to maintain the highest standards of cleanliness in your operations.

Together, we can ensure a cleaner, safer future.

CSI 2025 Registration is Now Open!

ChemStation Institute: Food Safety and Sanitation Summit (CSI) is back again. Join us at the Gaylord Rockies Resort in Denver, CO on October 27-29, 2025.

This year will feature talks about spoilage organism investigations in food manufacturing facilities and our popular *Find It, Formulate It, Fix It* workshop.

An optional pre-conference Internal Food Safety Auditor training will be held before the summit begins to focus on developing a robust Internal Food Safety Audit program.

Additional information and registration for CSI 2025 can be found here.

Mark your calendar for October and we will see you in Denver!

Dreams don't work unless you do.
– John C. Maxwell

Determination, patience, and courage are the only things needed to improve any situation.
