Our Path to Sustainability

ChemStation has been a steward of the environment since 1977. Our system of delivery to unique refillable containers reduces harmful environmental impacts caused by the disposal of typical drum and tote containment. Our refillable delivery equates to lower manufacturing costs, lower energy use, and less packaging. Our products are also biodegradable and do not pose a threat to the environment. Our system makes life safer and healthier for everyone.

ChemStation's path to sustainability starts with the development of our concentrated products and ends with our system of delivery right to the customer site, meeting the chemical needs of today with care and concern for the natural resources necessary for future generations.

ChemStation enjoys helping our customers live up to their green initiatives. Visit www.chemstation.com to learn more about us.

MICRO MONTHLY

Micro Monthly

Join Kara Mikkelson, Director of Food Safety for ChemStation, for this month's Micro Monthly on **Back to the Basics – Good Manufacturing Practices** on Friday, October 18th at 10 am CT.

She'll be joined by Mike Natali, ChemStation Account Manager and Eagle Team member who will give us insight into the do's and don't of best practices in GMPs.

Don't miss out on this webinar!

Noise-Induced Hearing Loss

The CDC explains, "Prevention and early detection of noise-induced hearing loss are important. It is also important to pay attention to signs of hearing loss and to get your hearing tested." Signs include:

- Speech and other sounds seem muffled.
- Trouble hearing high-pitched sounds.
- Trouble understanding conversations when in a noisy place, such as a restaurant.
- Trouble understanding speech over the phone.
- Trouble hearing certain sounds such as the difference between s and f in speech.
- Asking others to speak more slowly and clearly.
- Asking someone to speak more loudly or repeat what they said.
- Turning up the volume of the television or radio.
- Ringing in the ears.
- Certain sounds are very bothersome or create pain.

Learn more at https://www.cdc.gov/hearing-loss/signs-symptoms/index.html.

It's not that I'm so smart, it's just that I stay with problems longer.
– Albert Einstein

Character consists of what you do on the third and fourth tries.
– James A. Michener

Grit is living life like it's a marathon, not a sprint.
– Angela Duckworth
