JANUARY 2024 vol. XXXVII no.1

See You in Atlanta!

The 2024 International Production & Processing Expo (IPPE) will be held January 30 – February 1 at the Georgia World Congress Center in Atlanta, Georgia. IPPE is a collaboration of three shows – International Poultry Expo, International Feed Expo, and International Meat Expo – representing the entire chain of protein production and processing. This event will have more than 1,100 exhibitors showcasing the latest technology and innovations from around the world!

IPPE is the world's largest annual display of technology, equipment, supplies, and services used in the production and processing of eggs, meat, and poultry and those involved in animal food manufacturing. A wide range of international decision-makers attend this annual event to network and become informed on the latest technological developments and issues facing the industry.

If you're planning to attend this event, please stop by and say hello to the ChemStation Team in Booth C35187 (C Hall)! For more information about this event, visit www.ippexpo.org.

So Many Ways to Save

Looking to save in 2024? Here are just a few ways that ChemStation can help your company save:

- Our refillable delivery systems give lower manufacturing costs, lower energy usage, and less packaging.
- There are no containers to order, receive, store, move, or dispose.
- Custom formulation reduces over-ordering and product waste.
- Dispensing options proportion exact amounts needed to reduce waste.
- Manufacturing network processes orders quickly to lower logistics costs.
- Safety savings by not having to move heavy packages at end-user sites.
- Just-in-time ordering and delivery reduces supply chain inefficiencies.
- No supply chain disruptions waiting for empty drums or totes.

Success is peace of mind, which is a direct result of self-satisfaction in knowing you made the effort to become the best of which you are capable.
– John Wooden

The pessimist sees difficulty in every opportunity. The optimist sees opportunity in every difficulty.
– Winston Churchill
