APRIL 2024 vol. XXXVII no.4

See You at CheeseExpo!

Join us at the world's largest cheese and whey processing expo! CheeseExpo will be held April 16-18 at the Baird Center in Milwaukee, Wisconsin.

This event includes more than 4,000 cheese industry leaders, suppliers, marketers and more sharing information about the latest in cheese technology, new products, whey opportunities, product safety, marketing and additional issues affecting the industry. This exciting event is hosted by Wisconsin Cheese Makers Association (WCMA) and the Center for Dairy Research (CDR).

If you are planning to attend this event, please stop by and say hello to the ChemStation Team in Booth #115. We will be there showcasing our water-based, biodegradable sanitation and process chemicals for all your cheese and dairy industry needs.

To learn more about this event, visit cheeseexpo.org.

ChemStation Core Value

Safety is a core value for ChemStation nationwide. When working with concentrated chemicals there are often many health risks involved, but ChemStation's unique refillable tank system minimizes or, in many cases, even eliminates most of those risks, offering your employees peace of mind in a safer work environment.

ChemStation's 2024 Safety Committee Meeting took place last month in Florida. This year's meeting included a Safety+Best Practices Workshop with the continued focus on workplace safety; including our ongoing core safety values and deepening our commitment to the evolving future of safety culture.

From our employees, to our customers and beyond, safety is the number one priority in every facet of our company.

National Work Zone Awareness Week

National Work Zone Awareness Week (NWZAW) is an event that takes place across the United States, with partnerships between state departments of transportation (DOT), national road safety organizations, government agencies, private companies, and individuals.

This annual spring campaign is held at the start of construction season to encourage safe driving through highway work zones. The key message is for drivers to use extra caution in work zones. NWZAW 2024 is April 15-19 and is being hosted by the Maryland Department of Transportation (MDOT) with the theme, "Work Zones are temporary. Actions behind the wheel can last forever."

It is important for drivers to slow down and stay focused while approaching and passing through a roadway work zone. Learn more at nwzaw.org.

Don't let yesterday take up too much of today.
— Will Rogers

What you do today can improve all your tomorrows.
— Ralph Marston

When you're good at something, you'll tell everyone. When you're great at something, they'll tell you.
— Walter Payton
