DECEMBER 2023 vol. XXXVI no.12

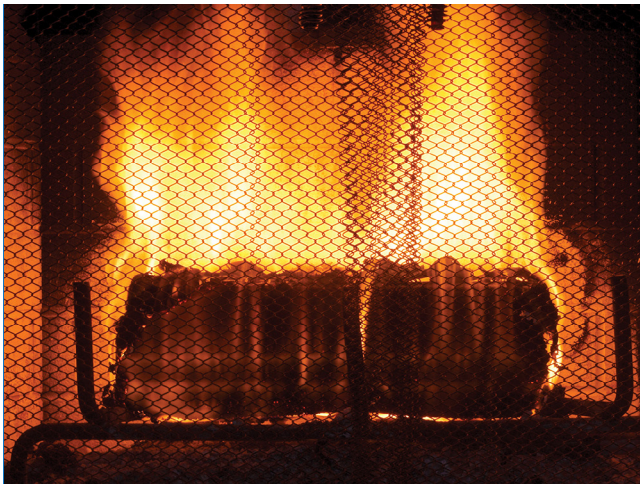

## Mark Your Calendars

Have you checked out our "Fridays are for Food Safety" posts each Friday on ChemStation's social media? You will find out fun info about members of ChemStation's Eagle Team along with food safety facts. In addition to these posts, we will be having a webinar series in February featuring some powerhouse women in food safety.

Sunday, February 11, 2024 is International Women and Girls in Science Day. This observance, adopted by the United National General Assembly in 2015 and implemented annually in collaboration with the United Nations Women, encourages equal and full access and participation of women in science.

At ChemStation, we want to celebrate women in science not just on that day, but all month. Every Friday in February at 11am CT/ 12pm ET we will be hosting a webinar featuring high powered women in food science. These women will discuss their journey into science, obstacles they have faced, and advice for future generations. Please join us each Friday in February for a one-hour discussion with these amazing women. Stay tuned for details and links! To learn how ChemStation can support your food processing safety journey, contact the Eagle Team at eagleteam@chemstation.com.

## Preventing Winter Fires

With nearly half of all home heating fires occurring in December, January, and February, stay safe this winter with these tips from the U.S. Fire Administration:

- Keep anything that can burn at least three feet from any heat source like fireplaces, wood stoves, radiators or space heaters.
- Keep portable generators outside, away from windows, and as far away from your home as possible.
- Install and test carbon monoxide alarms at least once a month.
- Plug only one heat-producing appliance (like a space heater) into an electrical outlet at a time.
- Have a qualified professional clean and inspect your chimney and vents every year.
- Store cooled ashes in a tightly covered metal container, and keep it outside at least 10 feet from your home and any nearby buildings.

For more information on how to prevent winter fires, visit www.usfa.fema.gov/winter and www.nfpa.org/winter.

## Happy Holidays from ChemStation

During the Holiday Season more than ever, our thoughts turn gratefully to all of our customers who have made ChemStation's progress possible.

Everyone at ChemStation wishes you peace, joy, and prosperity throughout the coming year.

Thank you for your continued support and partnership, and wishing you the happiest of holidays!

**The only limit to our realization of tomorrow will be our doubts of today.**
