ChemStation

OUR SYSTEM
IS YOUR SOLUTION

BEFORE

AFTER

TELEMETRY

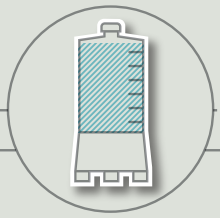

- Cell phone technology provides remote inventory monitoring.
- View tank levels and demand forecasting information on your computer or mobile device.
- Receive automatic email notifications to easily monitor chemical usage.
- Access historical records of product usage on demand.
- Use data to zero in on accountability when it comes to in-house, government, or third party audits.
- Catch overuse early with built-in alarm.
- Set automatic deliveries and never run out of product.

SUPPORT

CHEMSTATION'S SERVICE PACKAGE FOR FOOD & BEVERAGE

EQUIPMENT PLATFORM

- Translucent tanks, polyethylene stands, dispensing systems, and hardware are incorporated into your service package.

INVENTORY MANAGEMENT

- Use Tank Telemetry to view chemical levels on demand. Forecast data, track usage, and access reports at your fingertips.

A SAFER SOLUTION

- Eliminate risks associated with receiving, handling, storing, servicing, rinsing, and disposing of drums and totes.

CUSTOMIZED PRODUCTS

- Customized blend of water-based, biodegradable sanitation and process chemicals. Products span the foaming spectrum, are safe on metal, stainless steel, tile, or painted surfaces, and are effective in hard or soft water.

REFILLABLE SYSTEM

- Unique refillable tank system saves time and money spent handling and disposing of containers. No freight costs or container deposits.

INTERNATIONAL COVERAGE

- With over 60 locations and growing across North America, there is a ChemStation Manufacturing Center within 100 miles of your facility.

AUDIT SUPPORT & TRAINING

- Our sales and service teams partner with you to optimize your SSOPs, training programs, record-keeping, and general audit preparations.

LOCAL SERVICE & SUPPORT

- Customize an account management plan with your ChemStation team and address sanitation issues before they arise. Our local team can respond rapidly to all of your service needs.
