# INSIGHTS

Vol. XX No. 1, January 2008

## Bustin' Out Again

ChemStation International, Inc., is pleased to announce the opening of our newest Manufacturing Center in San Bernardino, California. This is our second location in the Golden State that will supply customers with our environmentally safe, water-based detergents and process chemicals.

In our 24th year of "Keeping it Clean" we continue to offer you our custom-formulated industrial cleaning products through a system that doesn't litter and contaminate the countryside with discarded containers and product residues. We're doing our part to help keep our environment clean. ■

## Clean Your Hands Often

Keeping your hands clean is one of the best ways to keep from getting sick and spreading illnesses. It is best to wash your hands with soap and clean running water. However, if soap and clean water are not available, use an alcohol-based product to clean your hands. Alcohol-based hand rubs significantly reduce the number of germs on skin and are fast acting.

**When washing hands with soap and water:**

- Wet your hands with clean running water and apply soap
- Rub hands together for 20 seconds and rinse well
- Dry hands with paper towel or air dryer
- If possible, use your paper towel to turn off the faucet

**When using an alcohol-based hand sanitizer:**

- Apply product to the palm of one hand
- Rub hands together
- Rub the product over all surfaces of hands and fingers until hands are dry ■

## January in Review

January 1, New Year's Day, is the most celebrated holiday around the world. On that date in 1892, Ellis Island in New York harbor opened and over 20 million new arrivals to America were processed until its closing in 1954. January is also Hot Tea Month and Soup Month. As usual, January 1-7 is Diet Resolution Week. On January 13, 1957 the famous Frisbee was launched by Wham O. Snowplow Mailbox Hockey Day is celebrated on the 23rd when snowplow drivers everywhere try to see how many rural mailboxes they can knock down. Twenty extra points are given for boosting one into the next township. We wrap up the month with Bubble Wrap Appreciation Day on the 30th.

## Just for You!

We have an attractive one-page fact sheet that explains each of the 16 sections contained on a Material Safety Data Sheet (MSDS). If there are chemicals at your place of business, then there must be an MSDS. Also, it's important that you have a keen understanding of how to read it.

Your ChemStation sales/service representative can provide you with this one-page fact sheet, "How to Read an MSDS." They are available in English and Spanish. Give your rep a call today and ask for your free copy. ■

## Poultry Show – Atlanta

The International Poultry Exposition is scheduled for January 23-25, 2008 in Atlanta. ChemStation is proud to be an exhibitor at this premier industry trade show. *Keeping it Clean* means more than floor scrubbing and parts washing…we also customize products specifically for use in the food processing industry.

If your plans take you to the Poultry Expo, stop by our booth (#2143) and say hello to the ChemStation staff. Find out more about why "Our System is Your Solution." ■

CHEMSTATION

# Winter Weather Wise

**Blizzard:** Winds of 35 mph or more with snow and blowing snow reducing visibility to less than 1/4 mile for at least 3 hours.

**Blowing snow:** Wind-driven snow that reduces visibility. Blowing snow may be falling snow and/or snow on the ground picked up by the wind.

**Snow squalls:** Brief, intense snow showers accompanied by strong, gusty winds. Accumulation may be significant.

**Snow showers:** Snow falling at varying intensities for brief periods of time. Some accumulation is possible.

**Snow flurries:** Light snow falling for short durations with little or no accumulation.

**Watch:** Winter storm conditions are possible within the next 36-48 hours. Prepare now!

**Warning:** Life-threatening severe winter conditions have begun or will begin within 24 hours. Act now!

**Advisory:** Winter weather conditions are expected to cause significant inconveniences and may be hazardous. If you are cautious, these situations should not be life threatening. ■

# Soapbox

Suburbia is where the developer bulldozes out the trees, then names the streets after them.

Don't worry if you're a kleptomaniac, you can always take something for it.

Save a little money each month and at the end of the year you'll be surprised at how little you have.

Accomplishing the impossible only means the boss will add it to your regular duties.

Advertising may be described as the science of arresting the human intelligence long enough to get money from it.

A conference is a gathering of important people who singly can do nothing, but together can decide that nothing can be done.

Two wrongs don't make a right, but they make a good excuse.

*Compromise, n.* Such an adjustment of conflicting interests as gives each adversary the satisfaction of thinking he has got what he ought not to have, and is deprived of nothing except what was justly his due.

There are 350 varieties of shark, not counting loan and pool.

Duct tape is like the force. It has a light side, a dark side, and it holds the universe together....

By the time we've made it, we've had it.

Never keep up with the Joneses. Drag them down to your level.

*Auctioneer, n.* The man who proclaims with a hammer that he has picked a pocket with his tongue.

Skiing combines outdoor fun with knocking down trees with your face.

Charm is a way of getting the answer yes without asking a clear question.
