JANUARY 2025 vol. XXXVIII no.1

Women in Science Webinar Series

February 11, 2025 is the International Day of Women and Girls in Science, an observance established by the United Nations General Assembly in 2015. This annual event aims to promote gender equality and empower women and girls to fully participate in and contribute to the sciences.

At ChemStation, we believe in celebrating women in science every day. This February marks the second year of our special webinar series highlighting trailblazing women in food science. Join us every Friday in February at 10:00am CT / 11:00am ET for an inspiring one-hour session featuring accomplished women scientists. These experts will share their personal journeys, discuss the challenges they've overcome, and offer guidance for the next generation of scientists.

Click the links below to register:
Friday, February 7th – Jill Stuber and Tia Glave of Catalyst, LLC
Friday, February 14th – Pam Wilger of Post Consumer Brands
Friday, February 21st – Kendra Waldbusser of Pilgrim's
Friday, February 28th – Dr. Virginia Deibel of Toxin Technology Laboratory

Sustainability in Numbers

At ChemStation, we are committed to helping our customers achieve their sustainability goals. Our innovative approach to chemical delivery and waste reduction is designed to minimize environmental impact and promote a greener future.

Let's take a closer look at the impact of ChemStation's refillable delivery system. Imagine a company with 500 sites, each using 7 drums a month, with each drum consisting of 20 pounds of plastic. This equates to:

- 500 sites x 7 drums/month x 20 pounds/drum = 70,000 pounds of plastic per month
- Over a year, this amounts to 70,000 pounds/month x 12 months = 840,000 pounds of plastic saved from landfills annually

By choosing ChemStation, your company can make a significant contribution to reducing plastic waste and promoting sustainability. Learn more at chemstation.com.

See You at IPPE!

The 2025 International Production & Processing Expo (IPPE) will be held January 28 – 30 at the Georgia World Congress Center in Atlanta, Georgia.

IPPE is a collaboration of three shows – International Poultry Expo, International Feed Expo, and International Meat Expo – representing the entire chain of protein production and processing. This event will have more than 1,300 exhibitors showcasing the latest technology and innovations from around the world!

If you're planning to attend this event, please stop by and say hello to the ChemStation Team in Booth C28185 (C Hall)! For more information about this event, visit www.ippexpo.org.

What we know often blocks us from what we need to see.
– Michael McKinney

It is not only what we do, but also what we do not do, for which we are accountable.
– Molière

What we must decide is perhaps how we are valuable, rather than how valuable we are.
– F. Scott Fitzgerald

BY THE NUMBERS

Gallons of soap delivered:
428,266,950
since 1984

Empty drums saved from landfills:
7,786,671
since 1984
